Medical Coding Syllabus

Course Description

The student will learn principles of medical coding(CPC Certification conducted by AAPC) related to the three main code books: CPT®, ICD-10-CM Code Set (AAPC based) and HCPCS Level II (AAPC based). This course is recommended for anyone who is preparing for a career in medical coding

Course Objective

- Introduce Human anatomy with explanation of different anatomical terms and body systems.
- Identify the purpose of the CPT®,ICD-10-CM Code Set (AAPC based), and HCPCS Level II (AAPC based) code books.
- Understand and apply the official ICD-10-CM (AAPC based) coding guidelines
- Apply coding conventions when assigning diagnoses and procedure codes
- Explain the determination of the levels of E/M services
- List the major features of HCPCS Level II Codes (AAPC based).

Course content:

- Module 1 - Medical Terminology, Anatomy Review and Business of medicine.
- Module 2 - ICD 10-CM (AAPC based) guidelines with ICD 9 applications.
- Module 3 - Introduction to CPT, HCPCS level II (AAPC based) and Modifiers.
- Module 4 - Integumentary and Musculoskeletal system.
- Module 5 - Respiratory and Cardiovascular system.
- Module 6 - Hemic and Lymphatic system.
- Module 7 - Digestive and Urinary system.
- Module 8 - Female Reproductive system, maternity care and delivery and Special senses (ocular, auditory).

Medical Coding Syllabus

- Module 9 - Endocrine system and nervous system.
- Module 10 - Anaesthesia and Radiology.
- Module 11 - Pathology, laboratory and Evaluation and management services.
- Module 12 - Medicine and Final Exam

Methods of Evaluation

- Practice exercises, online coding practice, review tests and a final exam will be used to evaluate student's performance.
- 70% passing score on all tests and final exam required for course completion.

Included course material (CPC Certification books by AAPC)

- CPT codebook
- ICD 10 CM (AAPC based)
- HCPCS level II (AAPC based)
- Study guide
