

Microsoft Azure:

Implementing and Architecting Solutions Certifications - 70-533 and 70-534

- Azure Data Centers
 - Introduction to Azure Networking
 - Microsoft Datacenters No Longer a Requirement
- Azure Virtual Networks
 - Azure Active Directory
 - Understanding IP Addresses
 - Access Control Lists
 - Network Security Groups
 - Resource groups
 - User Defined Routes and IP Forwarding
- Azure Compute
 - Azure Compute
 - Cloud Services
 - Virtual Machines
 - Virtual Machine Sizing
- Azure VPN
 - Overview of VPN and ExpressRoute
 - P2S Point-to-Site VPN
 - S2S Site-to-Site VPN
 - ExpressRoute
- Azure Services
 - Azure Services & Solutions
 - Azure Load Balancer
 - Internal Load Balancer
 - Azure Application Gateway
 - Traffic Manager
 - Azure Media Services
 - Azure Content Delivery Network (CDN)

Classroom

Corporate

Online

- Azure Active Directory
- Microsoft Azure Redis Cache
- What is Azure Multi-Factor Authentication
- Azure Service Bus

- Managed Identities
 - Introduction to Azure Security
 - Managed Identities
 - Graph API
 - OAuth and OpenID

- Hybrid Identities
 - Hybrid Identities
 - SAML Claims
 - Azure AD FS
 - Application Proxy

- Data Security
 - Network Security Group
 - NSGs In Practice
 - Data security in transit and at rest
 - Azure Operations Management Suite
 - Microsoft OMS

- Role-Based Security
 - What is Role Based Access Control?
 - RBAC In Practice

- Azure Data Storage
 - Introduction to Data Storage
 - Table Storage
 - SQL Storage
 - DocumentDB Storage
 - Blob Storage
 - Queue Storage
 - File Storage

Classroom

Corporate

Online

- SQL Server VM
 - Securing SQL Server
 - Azure Mobile Apps
 - Introduction to Azure Mobile Apps
 - Cross Platform Applications
 - Offline Sync
 - Extend Mobile Apps
 - Mobile Security
 - Azure Notification
 - Azure Notification Hub
 - Web API
 - Web API
 - Scaling Web API
 - Web Jobs
 - Securing Web API
 - Hybrid Applications
 - Service Bus Relay
 - BizTalk
 - Media Services
 - Overview of Azure Media Services
 - Compute Intensive Applications
 - Introduction to Advanced Applications
 - High Performance Computing in Azure
 - Long Running Applications
 - Designing Long Running Applications
 - Selecting Storage Options
 - Considerations for Storage Options
-
